

Maurice Kremer Award Nomination Nebraska Water Resources Association

The Award was founded in 1985 as a tribute to Maurice Kremer, a Nebraska native who served in the legislature where he was best known for establishing the Natural Resources Districts and helping pass laws to protect Nebraska's groundwater resources. The Award is intended to recognize outstanding Nebraskans who have made a significant impact in the conservation and protection of the State's groundwater resources through research, education or management activities.

Please use this form and additional pages if necessary to share the nominee's resume and achievements. Additional letters of support are not required and will not be considered.
